DANVILLE, ILL. (WCCU) – Balloons Over Vermilion will dazzle the sky once again this summer.

The festival is just around the corner, scheduled for July 13, 14 at Vermilion Regional Airport.

Balloons Over Vermilion pilot and committee member, Larry Owen, said there's fun to be had whether you're on the ground or in the sky.

"We usually have people with us when we fly," Owen said. "So it's neat to have somebody else experiencing what we're experiencing, but the people on the ground are always hollering at us and saying 'hello' because the sound really carries up to us."
